Ovoid Delft Vase

Blue And White

£420

REF: 2660

Height: 26 cm (10.2")

Description

An ovoid shaped Delft earthenware blue and white vase with a Chinoiserie decoration of figures in a landscape. Both the shape and the decoration of this vase is unmistakably taken from Chinese 'transitional' porcelain of the mid-17th century.

Condition: poor, a large crack runs from the rim and across the vase, another hairline from rim and significant glaze wear to the rim.

Delft, Netherlands, circa 1660-1680.
